

# Pablo Díaz-Jorge García

Full Stack Developer with a dynamic and adaptable approach, experienced in Angular and Web Components, and possessing a continuous improvement-oriented mindset.

## Relevant Experience

### Full Stack Developer · NTT DATA Europe & LATAM

Mar. 2022 - Jul. 2022 ~ Full time

As a Full Stack Developer at NTT DATA Valencia, I delivered end-to-end functionality for an internal employee management system. I configured REST services on the backend and built an interactive frontend calendar that offers both an overall view and a detailed breakdown of vacation days, all powered by cloud-hosted data.

### Data Analyst · Sothis

Mar. 2018 - Jun. 2018 ~ Full time

Database analysis and design for the compensation plan of the UNE (Business Unit) of Consulting and Information Systems (CSI) and the UNE of Automation and Control (AC).

## Selected Projects

### Personal portfolio

Personal portfolio built with Angular 19.1.7 and Tailwind CSS 4.1, featuring SSR, i18n (ES/EN), automatic dark mode, and lazy-loading for a fast, accessible experience.

### Book Management App

Book management application built with Angular 19.1.7 + PrimeNG. Features dynamic search and filtering, pagination, confirmation dialogs, and CRUD functionalities. Includes comprehensive unit tests.

### Book Management API

REST API for book management built with Spring Boot, PostgreSQL, and Cloudinary. Follows a classic architecture of controllers, services, and repositories, providing CRUD endpoints and CORS support for the Angular frontend. Also includes image upload to Cloudinary, global error handling, configurable logging, pagination, and comprehensive unit tests.

### Palaze ~ Library of native web components

A native web component library built with Stencil.js, aimed at simplifying the development of modern web applications with built-in customization and responsiveness. It offers a range of components, including buttons, headers, footers, and others, all adhering to the latest web standards.

Palaze was created as my final degree project as a deep dive into web development.

## Skills

### Programming Languages

JavaScript, TypeScript, HTML, CSS, SCSS, Java, PostgreSQL

### Libraries & Frameworks

Angular, Spring Boot, Node.js, Stencil.js, Web Components, Tailwind CSS, Bootstrap, ngx-translate (i18n), PrimeNG

### Tools & Platforms

Git, GitHub, Netlify, Vercel, WebPack, Figma, Sourcetree, Maven

## Education

### Bachelor's Degree in Computer Engineering

2018-2023

Universidad Politécnica de Valencia (UPV)

### Higher Technician in Multiplatform Application Development (DAM)

2016-2018

Centro Integrado Público de Formación Profesional de Cheste

### Science & Technology Baccalaureate

2014-2016

Instituto de Educación Secundaria - LES RODANES

## Languages

Spanish - Native  
Valenciano - Native  
English - Around B2 (Actively improving towards C1)

## Interests

Photography, hiking, cinema, fitness, video and photo editing, color correction, web accessibility
